## **Editorial**

### **Encroachment in the Department by Retired Engineers to be stopped:**

Of late in our Public Works Department, retired Engineers and bureaucrats are slowly entering as Consultants, Advisors and Execution staff in the guise of Tamil Nadu River Restoration Corporation, Water Resources Cell etc. They try to impose their will on our Engineers who are working in different wings of Public Works Department. Their tendency to interfere in the day to day activities of our Public Works Department must be condemned by one and all. Serving Engineers are no less competent than the retired Engineers / bureaucrats and are capable of planning and executing any number of works with full responsibility and accountability.

We appeal to the Government to discontinue this practice of employing retired Engineers / bureaucrats in the activities of Public Works Department for the welfare of our department.

- ii. The proposal for the increase in monetary limit on the powers delegated in acceptance of tenders to the Chief Engineers of Water Resources Department / Building Organisation of PWD would definitely reduce the time required in taking decisions on the tenders and the benefits of all the welfare schemes announced by the Government will reach the general public on the targeted time frame.
