- 12) From the Chief Engineer, State Ground and Surface Water Resources Data Centre, Letter No. DD(G)/AGV/GWRA-2024/2025, Dated 14.02.2025.

### **ORDER:**

In the Government Order first read above, based on the development of the ground water resources, the Panchayat Union Blocks in Tamil Nadu were categorized as Dark and Grey areas as on January 1992 and January 1997 (Projected development at year 5). The Blocks with ground water development between 85% to 100% were categorized as "Dark Blocks" and the Blocks with ground water development between 65% to 85% were categorized as "Grey Blocks". The Government directed that no Scheme should be formulated in the Dark Blocks and in the Grey Blocks, Schemes should be formulated in consultation with the Ground Water Wing of the Public Works Department only. The above categorisation was done in accordance with the then prevailing Ground Water Estimation Committee – 1984 (GEC-1984) Norms. Thereafter, the Committee constituted by the

Ministry of Water Resources, Government of India, has recommended to adopt the GEC-1997 Norms for estimation of the ground water resources in all the States.

2. In the Government Order second read above, the Government approved the categorization of the Panchayat Union Blocks in Tamil Nadu as Over-Exploited, Critical, Semi-Critical and Safe Blocks for ground water development as on January, 2003. The Government directed that no Schemes should be formulated in the Over Exploited and Critical Blocks and in the Semi-Critical and Safe Blocks, all the Schemes should be formulated in consultation with the State Ground and Surface Water Resources Data Centre of the Water Resources Organisation in the Public Works Department. It was also ordered therein that the term "Scheme" excludes energisation of agricultural pump sets by the Tamil Nadu Electricity Board. The Government further directed that appropriate rain water harvesting and artificial recharge schemes be carried out in all the categories of Blocks and while carrying out the above Schemes, priority should be given to the Over Exploited and Critical Blocks so as to avoid further deterioration.

3. In the Government Order third read above, the Government approved the categorization of the Panchayat Union Blocks as Over-Exploited, Critical, Semi-Critical and Safe Blocks based on the assessment of the State Ground Water Resources as on March 2009. All the Over Exploited and Critical Blocks were notified as A Category Blocks (where the stage of ground water extraction is 90% and above) and all the Semi Critical and Safe Blocks were notified as B Category Blocks (where the stage of ground water extraction is below 89%). The Government directed that no Schemes should be formulated in Over Exploited and Critical blocks "Notified as A Category Blocks" and in the Semi-Critical and Safe Blocks "Notified as B Category Blocks", all the Schemes should be formulated through the State Ground and Surface Water Resources Data Centre of the Water Resources Department and the Chief Engineer, State Ground and Surface Water Resources Data Centre, would issue "No Objection Certificate" for ground water clearance. The Government further directed to exclude the ground water drawal for domestic purpose by individual household; domestic Infrastructure Project (Housing); Government's Drinking Water Supply Schemes and Non Water based Industries (i.e., the industries which do not require and use water, either as raw material or for other processing). The Chief Engineer, State Ground and Surface Water Resources Data Centre, would permit domestic use of water by these Non Water based Industries by issuing "No Objection Certificate" based on the hydro-geological conditions. The Government further directed that appropriate Rain Water Harvesting and Artificial Recharge Schemes should be carried out in the categories viz, Over exploited, Critical, Semi Critical and Safe Blocks of Tamil Nadu and while carrying out the above Schemes, priority should be given to marginal quality and bad quality areas so as to avoid further deterioration. The Government further directed that all the Schemes and Proposals based on ground water would have to adhere to the Government Orders and Conditions detailed in the Annexure-II to the above mentioned Government Order. This Government Order had been upheld by the

Hon'ble Bench of Madras High Court, in its Common Judgement dated 18.09.2013, in WA Nos. 923 to 926 of 2009, WP Nos 23116 of 2006, 23896 to 23900 of 2016, 4711 of 2004 and 12375 of 2008. The Hon'ble High Court had made it clear that even with the repealing of the Tamil Nadu Ground Water (Development and Management) Act, 2003, this G.O. would govern the interest of the parties and the State in the matter of regulating the business of the Writ Appellants.

4. In the Government Order fourth read above, the Regulations for management of ground water and issue of No Objection Certificate / License for extraction of groundwater in the State were approved. In the year 2014, many water based industries filed Writ Petition and batch cases before the Hon'ble Madras High Court praying for directions to quash the G.O. (Ms) No. 142, Public Works (R2) Department, Dated 23.7.2014. The Hon'ble High Court in its Judgement dated 03.10.2018 in W.P. No. 28535 of 2014 and batch cases, has upheld the G.O (Ms) No. 142, Public Works (R2) Department, dated 23.07.2014.

5. Subsequently, in the Government Order fifth read above, the Dynamic Groundwater resources in the State were estimated taking a Revenue Firka as an unit of assessment by the State Level Technical Co-ordination Committee as on March 2011 and accordingly the Government had approved categorization of the Over-Exploited, Critical, Semi-Critical, Safe and Saline Firkas based on the above assessment.

6. In the Government Orders sixth, seventh, eighth and ninth read above, the Government have approved the categorisation of the Firkas in the State as Over-Exploited, Critical, Semi-Critical, Safe and Saline / Poor Quality Firkas based on the Ground Water Resources Assessment as on March 2013, March 2017, March 2020 and March 2022 respectively.

7. In the Government order tenth read above, the Government constituted a Permanent State Level Committee under the chairmanship of the Additional Chief Secretary, Water Resources Department, with the members from all related Departments / Agencies of groundwater resources as on March, 2023 and subsequently for every year for the State of Tamil Nadu.

8. In the Government Order eleventh read above, the Government have approved the categorisation of the Firkas in the State as Over-Exploited, Critical, Semi-Critical, Safe and Saline / Poor Quality Firkas based on the Dynamic Ground Water Resources Assessment as on March, 2023.

9. In the letter twelfth read above, the Chief Engineer, Water Resources Department, State Ground and Surface Water Resources Data Centre, Chennai has stated as follows:-

- (i) The Dynamic Groundwater Resources Assessment (GWRA) is jointly carried out by the Chief Engineer, Water Resources Department, State Ground & Surface Water Resources Data Centre, Chennai and the Regional Director, Central Groundwater Board (CGWB), Chennai based on the Methodology

evolved by Groundwater Resources Estimation Committee, 2015 (GEC-2015). The Groundwater Resources Assessment (GWRA) has been carried out through India-Groundwater Resource Estimation System (In-GRES) software developed by Central Groundwater Board & Indian Institute of Technology (IIT), Hyderabad since 2020. The results of the groundwater estimation are approved by the State Level Committee (SLC) headed by the Additional Chief Secretary, Water Resources Department and the same is submitted for approval to the Central Level Expert Group (CLEG) chaired by the Chairman, Central Groundwater Board (CGWB), New Delhi. The CLEG consolidates and publishes the National Compilation of Dynamic Groundwater Resources Assessment report and then the State Government notifies the categorization of firkas as a Government Order.

- (ii) The draft proposal of Dynamic Groundwater Resources Assessment as on March 2024 has been presented before the State Level Committee headed by the Additional Chief Secretary to Government, Water Resources Department in the WRD, Conference Hall, Chennai on 07.10.2024. After the deliberations, the Dynamic Groundwater Resources Assessment as on March 2024 has been approved by State Level Committee. The Minutes of the meeting of SLC has been addressed to the Regional Director, Central Ground Water Board, South Eastern Coastal Region, Chennai to present the Dynamic Groundwater Resources Assessment report as on March 2024 of the State before the Chairman, Central Level Expert Group, CGWB New Delhi for approval.
- (iii) The Central Level Expert Group Committee has approved the "National Compilation of Dynamic Groundwater Resources Assessment of India - 2024" which was released by the Union Minister, Ministry of Jal Shakti, Government of India on 31.12.2024 and the same was communicated by the Regional Director, Central Ground Water Board through e-mail on 27.01.2025.
- (iv) Revenue Firka is being taken as an assessment unit. The stage of groundwater extraction of firka is computed as the ratio between the annual groundwater extraction and annual extractable groundwater resource. Based on the stage of groundwater extraction, the assessment units are categorized as Safe, Semi Critical, Critical and Over Exploited and it is mentioned in the table below. The Poor Quality/Saline category is also assessed based on the quality parameters.

Stage of groundwater extraction (%)

Sl. No.	Stage of groundwater extraction (%)	Firka categorization
1.	Firkas with greater than 100% extraction of groundwater (Extraction > 100%)	Over exploited
2.	Firkas with the extraction of groundwater greater than 90% and less or equal to 100% (Extraction > 90% and ≤100%)	Critical

3.	Firkas with the extraction of groundwater greater than 70% and less than or equal to 90% (Extraction > 70% and ≤90%)	Semi critical
4.	Firkas with the extraction of groundwater less than or equal to 70% (Extraction ≤70%)	Safe
5.	Poor quality (or) Saline	Saline (or) Poor quality

- (v) In Tamilnadu, totally 1202 Firkas have been assessed and the categorization of firkas of the Dynamic Groundwater Resources Assessment as on March 2024 are as follows:-

Sl. No.	Categorization	No. of Firkas
1.	Over exploited	392
2.	Critical	56
3.	Semi critical	239
4.	Safe	481
5.	Saline (or) Poor quality	34
	<b>TOTAL</b>	<b>1202</b>

10. The Chief Engineer, Water Resources Department, State Ground and Surface Water Resources Data Centre, Tharamani, Chennai has therefore, requested the Government to issue order for notification of the Categorization of the Firkas of Tamil Nadu as per the results of Dynamic groundwater resources as on March- 2024.

11. The Government, after careful examination, have decided to accept the above proposal of the Chief Engineer, Water Resources Department, State Ground and Surface Water Resources Data Centre, Chennai. Accordingly, the Government issue orders for the categorization of Revenue Firkas of Tamil Nadu as Over-Exploited, Critical, Semi Critical, Safe and Saline as detailed in the Annexure of this order, based on the results of Dynamic Ground Water Resource Assessment as on March, 2024 and to notify this categorization in the Tamil Nadu Government Gazette.

12. The Government also direct that all the Over Exploited and Critical Firkas as on March, 2024 Resource Assessment to be declared as Notified Firka - A Category (Stage of Groundwater extraction is greater than 90%) and all the Semi critical and Safe Firka to be declared as Notified Firka - B Category (Stage of Groundwater extraction is less than or equal to 90%).

13. The Chief Engineer, State Ground and Surface Water Resources Data Centre, Water Resources Department is directed that appropriate rain water harvesting and Artificial recharge schemes shall be carried out in the categories viz, Over exploited, Critical, Semi Critical, Safe and Saline Firkas of Tamil Nadu. While

carrying out the above Schemes, priority shall be given to marginal quality and bad quality areas so as to avoid further deterioration.

14. Other technical circulars issued by the Chief Engineer, State Ground and Surface Water Resources Data Centre, Water Resources Department, Chennai in this regard are to be adhered to, as and when issued.
